

MODEL ARD

ACCESS DOOR FOR POSITIVE PRESSURE DUCTS
(Relief On Negative Pressure)
Standard Construction To 12" S.P.

QTY.	DOOR SIZE		No. of Springs
	Width	Height	
	6	10	2
	8	8	2
	10	10	2
	12	12	4
	14	14	4
	18	18	4

FEATURES:

- Provides access for inspection / resetting of fire dampers.
- 16 gauge galvanized steel construction.
- Positive duct pressure provides seal between door and frame.
- Install on downstream side of dampers in positive pressure duct for negative pressure relief to prevent duct collapse due to accidental closing of fire dampers during system operation.
- Relieves at approximately 1 to 1.5 IWG negative duct pressure when installed in a vertical orientation. Relief pressure is **NOT** adjustable. Not intended for installation on top or bottom of duct.
- Auto door return.
- Available options include Plexiglas window or double wall insulated door.
